

# AYAAN KHAN

## SOFTWARE DEVELOPER

### Profile

I am a motivated and detail oriented student who has completed Class 12 and is preparing to pursue a Bachelor's degree in Computer Applications. Alongside my academic journey, I am completing a professional diploma in Software Programming from J&K Srinagar, where I am gaining strong practical experience in modern web technologies and software development.

### Soft Skills

- I am a problem solving developer and a critical thinker with a strong focus on front end development.
- I specialize in building user friendly, responsive, and scalable web applications with clean logic and modern, sleek design.
- I am passionate about turning ideas into functional digital solutions and continuously improving my technical and creative abilities.

### Languages

- English
- Hindi
- Urdu

### Skills

- I have hands-on skills in C# , HTML, CSS,
- JavaScript, React, ASP.NET Core, Node.js, Nextjs, TypeScript and web development frameworks including Bootstrap and Tailwind CSS.
- I also work with version control using GitHub and have experience in database management systems and server- side technologies such as MySQL, ASP, SQL, MongoDB

### Work Experience

- I have worked on developing and designing modern, responsive websites and web applications. My work includes creating user friendly interfaces, writing clean and efficient code, and delivering software solutions that meet real user and business needs. I focus on building applications , websites that are both visually appealing and technically reliable.
- I maintain strong client relationships by understanding requirements clearly, providing consistent updates, and ensuring that every project is completed to a high standard. I adapt quickly to new technologies and challenges while maintaining quality and performance.
